

Westside Center celebrates renovation in St. Louis Park

Published March 4, 2016 at 7:38 pm

By Paul Groessel

The grand opening of Westside Center was formally celebrated Wednesday, Feb. 24, at the former Nestle facility on the west side of Highway 100. Hillcrest Development purchased and renovated the 278,000 square-foot site in August 2014, and is now home to 12 businesses and is 96 percent filled. The 25-acre property is a mix of warehouse, commercial, office and other spaces. Hillcrest not only renovated existing spaces, but built a 36,000-square-foot warehouse for Lyman Companies.
